Recommendations from government and health officials are regularly shifting in light of COVID-19. Thankfully, our entire Dion's team has shown an exceptional ability to adapt while keeping our communities safe.

Below are the filters our team is using to guide decisions.

• First, the safety, health, and well-being of our employees and customers remains our number one priority. To this end, we have closed our lobbies and orders placed in advance can be picked up at the drive-thru or delivered. The one exception is our lone store in Albuquerque on 4th Street, which has a curbside option. Additionally, crew members continue to increase the frequency at which they wash their hands, they sanitize contacted areas hourly, and they wear gloves. Employees are also wearing non-medical-grade masks, as they become available.

• Second, we are committed to supporting our employees with jobs and paychecks. Our goal is to continue to support our employees and their families with employment.

• Third, our commitment to feeding our communities. Nationwide there is a strain on parts of the food supply, and while grocery stores may be the front line, the restaurant industry is a key player in keeping people fed. At Dion's, we are proud to play this role.

We recognize this is an unprecedented situation and your support is appreciated as we navigate this uncharted territory.
